Skills

Languages: C, C++, SQL, PHP, HTML, CSS, JavaScript, Java, Python, Typescript

Technologies: React.js, Express.js, Node.js, MongoDB, PostgreSQL, Next.js, Bootstrap

Coursework: Low-level Design(LLD), Algorithms Analysis, Operating System(OS), Data Structures, Networking, Database (DBMS), Software Engineering

Miscellaneous: Linux, Shell (Bash/Zsh), Git

EXPERIENCE

Content Problem Reviewer and Solution Author, LeetCode

Apr 2024 – Aug 2024

- Oversaw a quality control initiative for LeetCode problems, revising 120 problem statements and examples; improved user satisfaction ratings by 15% through feedback channels.

Projects

Raj Fashion eCommerce Website | React, UI/UX Documentation, Frontend Development

[Link]

- Documented the frontend behavior and user interaction flows for the Raj Fashion eCommerce website, providing detailed guidelines that streamlined development and improved feature consistency, leading to a 25% reduction in debugging time and enabling the launch of key features 2 weeks ahead of schedule.
- Enabled a seamless shopping experience with optimized load times (35% faster) and intuitive navigation, ensuring accessibility and usability across devices.
- Collaborated with developers to ensure timely feature implementation, improving development speed by 30% and enhancing user engagement by 20% post-launch.

KnowMe | NextJS, ThreeJS, Framer Motion, Tailwind CSS

[Link]

- Developed and deployed a personal portfolio website leveraging modern web technologies to enhance personal branding, achieving a 60% increase in profile visibility and engagement across professional networks.
- Integrated interactive UI/UX elements, boosting visitor retention by 30%.
- Showcased key projects, achievements, and skills, leading to a 50% increase in portfolio traffic and connection requests from potential employers and collaborators.

TeleScript-Caller | Python, Twilio API

- Developed and implemented an automated calling bot, enhancing user communication capabilities by automating outbound calls with customizable scripts, leading to a 70% reduction in manual intervention.
- Integrated advanced features for real-time script customization and response management, contributing to a 50% improvement in user productivity by streamlining repetitive tasks.

Achievements

- **Div3 on CodeChef with 630+ days streak**
- **Solved 1,200+ DSA problems** across platforms, maintaining a **425+ day streak on Leetcode**. (Consistency)
- Technical head of a community of students interested in coding, **followed by 3,000+ students**. (Link)
